

# Evaluation criteria for the admission examination to the PhD in Industrial and Management Engineering (40th cycle)

## **Research proposal (max 30 points)**

According to the PhD call for proposals, the candidate must submit a project to allow an assessment of the propension and the ability to independently organize the various stages of research. This project, submitted for competition purposes, does not constitute an obligation for the admitted candidates to carry out the research activity during the PhD.

In particular, they will be evaluated:

- Objectives of the project (10 points)
- State of the art (7,5 points)
- Originality (7,5 points)
- Feasibility of the project (5 points)

The minimum score of the project to be admitted to the oral examination is 20/30
