

## Evaluation criteria for the admission to the PhD programme in Mathematics (40th cycle)

The titles will be evaluated on the basis of the following evaluation grid:

### Titles (max 60 points)

#### 1 – University final degree mark (max 10 points)

Mark	Points
110 with honours	10
110	8
109	7
108	6
107	5
106	4
105	3
104	2
103	1
<103	0

Students who will defend their thesis before the date established for the evaluation of qualifications are required to communicate to the PhD Programme Coordinator or to the President of the Commission the grade obtained in their degree, while for those who will defend the thesis after the date established for the evaluation of qualifications, but before October 31, 2024, the grid in point 1 is replaced by the following:

Average marks	Points
29 – 30	10
28.5 – 28.99	9
28 – 28.49	8
27.5 – 27.99	7
27 – 27.49	6
26.5 – 26.99	5
26 – 26.49	4
25.5 – 25.99	3
25 – 25.49	2
24.5 – 24.99	1
<24.5	0

For system with different marks, the points will be assigned following a similar table.

## 2 – Publications (**max 5 points**)

The committee will evaluate the publications submitted in the application.

## 3 – Academic curriculum (**max 35 points**)

In the selection process, the committee will evaluate in particular the marks obtained in the various classes, the actual duration of the academic program, the relevance of the studied topics.

The recommendation letters, although not mandatory, are strongly encouraged and will be evaluated in order to allow a more complete assessment of the potential of candidates.

## 4 – Research experiences (**max 10 points**)

For the evaluation process, the candidate can present a research project, to describe his research interests and eventually the affinity with members of the Mathematics Department. The document should not exceed 8000 characters (spaces included).

**Candidates who have obtained at least 20 points in the overall assessment of qualifications are eligible for the next test.**
