

Mechanics and remodeling in anisotropic inelastic materials

April 7 - April 28, 2021

Every Wednesday, 5:00-6:00 pm (CET)

Register [HERE](#) for the ZOOM link

Miles Rubin – Technion Israel Institute of Technology (Israel)

April 7, 2021

Eulerian formulation of inelasticity

Alain Goriely – University of Oxford (England)

April 14, 2021

A field theory for plant tropism

Luigi Preziosi – Politecnico di Torino (Italy)

April 21, 2021

Cell reorientation over a stretched substrate: experiments and mechanical model

Jacopo Ciambella – Sapienza Università di Roma (Italy)

April 28, 2021

Remodelling in viscoelastic anisotropic materials
