Nationality Italian

ACTUCAL POSITION / JOB
QUALIFICATION

PhD Student in Energy and Environment

ACADEMIC BACKGORUND

09/09/2008 State exam and professional engineering licensing
Sapienza University of Rome

28/05/2007 Master's Degree in Aerospace Engineering (Vecchio Ordinamento)
Sapienza University of Rome

I conducted my research and wrote my thesis at the Department of Mechanical Engineer, McGill University, Montreal, QC, Canada. Thesis supervisors: prof. F. Graziani, prof. A. K. Misra, prof. I. Sharf. Thesis title "Reactionless Capture of a Satellite by a Two Degree-Of-Freedom Manipulator".

ORDER OF THE ENGINEERS
OF ROME PROVINCE

07/2023 - Present Member of the Commission for equal opportunities: implementation, PNRR and new regulations.
The Commission aims at developing proposal for interventions and policies in order to remove any form of discrimination and to valorize the contribution that all the engineers of the order may give to our profession.

PROFESSIONAL MAIN
UPDATING

11/2024 Scholarship Winner to the PhD Programme
Sapienza university of Rome – Energy and Environment – 40th cycle)

04/2024 Leaky Waves and Periodic Structures for Antenna Applications
European School of Antennas and Propagation (ESoA) .Full participation achievement of this intense 3-day Course.

01/07/2013 – 08/10/2013 Marketing comunicazione e media digitale
Il Sole 24 ORE Formazione ed Eventi.

05/2009 XXV European Master on Community Funding
CEERNT (Centre Européen d'Etude et de Recherche et Nouvelles Technologies), Rome and Bruxelles.

The Course has been part of my training activities while working at the Department of Aerospace and Astronautical Engineering, Sapienza University of Rome.

RESEARCH ACTIVITY

RESEARCH FIELD Research Studies in the area of spacecraft dynamics particularly the dynamics of capture of a satellite by a space manipulator.

10/2005 – 04/2007 Academic Trainee

Space Flight Dynamics Laboratory of the Department of Mechanical Engineering, McGill University, Montreal, QC, Canada.

I have been part of the Spacecraft Dynamics research group and focused my research activity on manipulator-assisted capture of satellites developing several algorithms to determine the trajectories of the end-effector of the manipulator that minimize the attitude disturbance on the base spacecraft.

My research work and professional profile was chosen for the Highly Qualified Personnel (HQP) grant of the Natural Sciences and Engineering Research Council (NSERC) of Canada.

01/2006 – 04/2006 Courses attended

Department of Mechanical Engineering, McGill University, Montreal, QC, Canada. PhD Courses attended during my research activity at McGill:

- “Advanced Dynamics”, prof. Josef Kovecses.
- “Mechanics of Robotic System”, Prof. Hamid D. Taghirad

Immediate outcomes

2010

- Journal article:
P. Piersigilli, I. Sharf, A. K. Misra, “Reactionless capture of a satellite by a two degree-of-freedom manipulator”. Acta Astronautica, Volume 66, Issue 1-2 2010, pages 183-192.
(40 citations, Scopus index)

29/09/2008 – 03/10/2008

- Congress participation and conference proceeding:
59th International Astronautical Congress, Glasgow, UK.
On behalf of McGill University I presented the results of my research work.

RELEVANT EXPERIENCE

2010 - 2021

Peer Review

Peer reviewing activity mostly for Acta Astronautica.

2010 - 2012

Systems design and planning

GIUA&Partners, Viale dei Parioli 59, 00197. Rome.

I was in charge of the design and planning of the ventilation and fire protection systems and of the emergency signs of road tunnels for a project in the regions of Umbria and Marche (Quadrilatero Marche - Umbria).

03/2009 – 07/2009

First International LARES Science Workshop

School of Aerospace Engineering of Rome, Sapienza University of Rome.

I have been part of the team organizing the workshop held in Rome on July 3,4 2009.

2009

LARES Project and Mission

Department of Aerospace and Astronautical Engineering, Sapienza University of Rome.

Reviewing activity of several articles in the field of gravitomagnetism.

Editorial support for the Wheeler book: “General Relativity and John Archibald Wheeler” I. Ciufolini and R. Matzner (Springer 2010).

06/2004 Launch of UniSat-3 from Baikonur

UniSat3 has been the third student-made microsatellite designed and integrated by students participating in the UNISAT Program of the School of Aerospace Engineering of Rome.
