Abstract of the Master Thesis

The degree thesis reconstructs the main facts of the fascist squadristism in the Florentine district between October 1920 and October 1922, that is until the March on Rome. Not being able to deal with all the episodes related to the squadristism because of their huge number, the thesis focuses on the main ones, trying to follow a chronological criterion for the division of the chapters and a geographical and thematic criterion for each single paragraph.

In order to reconstruct events, the research is based on a large number of documents of various kinds. In fact, in addition to the specific bibliography, it has made use of newspapers and periodicals, the diaries of the protagonists, the procedural documents of the Court of Appeal and the Court of Assizes of Florence, the correspondence of the Prefect with the Minister of the Interior present at the Central Archives of the State of Rome, the Municipal Archives of Prato, Bagno a Ripoli and Lastra a Signa.
